

REMARKS

Claims 1-6 are pending in the present application. Claims 1-4 have been allowed. Claims 1, 4, 5, and 6 are the only independent claims.

The specification has been amended to address formatting and grammatical issues and to remove citations to the World Wide Web in conformance with current USPTO practice. Attached hereto are a substitute specification and a marked version thereof, indicating the amendments thereto. No new matter has been added to the specification.

Claims 1-4 have been amended to address minor grammatical issues and to place the claims in better form without narrowing the scope of the claims as originally presented.

It is submitted that claims 1-4, and newly added claims 5 and 6, are patentable for at least the same reasons as discussed in the Office Action dated December 1, 2006.

In view of the above amendment, applicant believes the pending application remains in condition for allowance.
